APPLICATION 13883

PERMIT 8102

LICENSE 6854

**ORDER DELETING IRRIGATION AS A PURPOSE OF USE
DELETING 45 ACRES AS PART OF THE PLACE OF USE AND
AMENDING THE PERMIT**

WHEREAS:

1. License 6854 was issued to C.D. Giambruno, Eva F. Giambruno, Adrian K. Loomis, Willa J. Loomis, L.E. Shortes and Betty Shortes and was recorded with the County Recorder of El Dorado County on June 12, 1963 in Volume 640, Page 478.
2. License 6854 was subsequently assigned to Holiday Lake Community Services District.
3. An inspection of the project was made on January 29, 1990 and it was determined that Irrigation should be deleted as a Purpose of Use and the 45 acres of irrigated land should be deleted from the Place of Use under this license. The inspection revealed that the water stored in the reservoir has not been use for irrigation since 1967.
4. The license condition pertaining to the Board's continuing authority should be updated to conform to Section 780(a), Title 23 of the California Code of Regulations.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The purpose of use under this license shall be as follows:
Recreational use
2. The place of use under this license shall be as follows:
Recreational use within SE $\frac{1}{4}$ of NE $\frac{1}{4}$, SW $\frac{1}{4}$ of NE $\frac{1}{4}$, NE $\frac{1}{4}$ of SE $\frac{1}{4}$ and NW $\frac{1}{4}$ of SE $\frac{1}{4}$, all in Section 6, T9N, R10E, MDB&M.

3. The license condition pertaining to the Board's continuing authority is amended to conform with Section 780(a), Title 23 of the California Code of Regulations and read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this license, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this license with a view to eliminating waste of water and to meeting the reasonable water requirements of licensee without unreasonable draft on the source. Licensee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this license and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the licensee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.
